playing Zionist-controlled newspapers, radio, television and other Zionist-controlled methods for influencing votes. The domination by Zionists of commerce, industry and finance in these five states increases the power of Zionists to control large numbers of additional votes. Therein lies the ability of Zionists to dictate the election of the president of the United States and the foreign policy of the United States in Palestine. This dangerous dilemma in which the 152,684,232 non-Zionists in the United States now find themselves is a matter which deserves more consideration than it is receiving.

BALANCE-OF-POWER ZIONIST VOTES POWERFUL FACTOR TODAY

It would mean political suicide for the Republican Party to ignore the Zionists' effective control of the 148 electoral votes of those five states. The planks in the platforms of both political parties, their other promises to Zionists and the performance in office of elected officials with respect to the foreign policy of the United States in Palestine have been planned to capture the Zionist balance-of-power votes in the popular elections of those five states, in presidential elections. The extremes to which presidential candidates have gone for that purpose in the past have earned for the United States only the friendship of Zionists in the United States, and of course for whatever it may be worth to the United States, throughout the world, but have lost for the United States the century-old friendship of 1,800,000,000 persons in Africa and Asia, 80% of the world's total population, in those great continents whose manpower and natural resources are vital beyond measure to the security of the United States today. In any war with the Soviet Union and the nations beholden to it, the United States faces defeat and surrender to the Soviet Union without the loyal support of the peoples of these two continents.

450,000,000 MOSLEMS PLEDGE AID TO PALESTINIAN ARABS

President Eisenhower's recommendation for "formal treaty engagements" to employ the armed forces of the United States in Palestine is entirely "a horse of a different color" than appears on the surface. To those who are well informed on the conspiracy behind President Eisenhower's recommendations, such "formal treaty engagements" have inherent in them grave implications which do not appear on the surface. The only actual outcome of such "formal treaty engagements" will be to "freeze" at the time the "status quo" in Palestine. That is what the Zionists now most desire and most require to remain in physical possession of Palestine even temporarily. With or without "formal treaty engagements" by the United States guaranteeing permanent physical possession of Palestine to the Zionists on a "status quo" basis, the 450,000,000 Moslems of the Middle East, North Africa and Asia someday from what they say today, intend to lend to the exiled Palestinians, when they are able to do so, the same kind of assistance to recover their embezzled homeland which the Christian nations of Europe, North America and South America gave to France in 1914, to then assist France in recovering Alsace-Lorraine, her "Lost Province," taken from France by Germany in 1871 in the Franco-Prussian War. A "double standard" in such matters incites new wars.

REASONS BEHIND PALESTINE PLEDGE SUPPRESSED AND SECRET

The suppressed and secret reasons for President Eisenhower's recent recommendation for "formal treaty engagements" for the employment of the armed forces of the United States in Palestine are as little suspected today by the public as the public in 1941 suspected at that time the suppressed and secret reasons for the imminent and inevitable attack by Japan on Pearl Harbor, before the actual occurrence of that tragic and deplorable event. The grave implications inherent in President Eisenhower's proposal to employ the armed forces of the United States in Palestine jeopardize the peace of the world today, as well as the security and welfare of the United States, more than any declaration made by the head of a government since the outbreak of World War II as the result of a similar situation.

ZIONISTS ANNOUNCE "DISCOVERY" OF OIL IN PALESTINE

The New York Times on September 24, 1955, boldly featured on the front page a "Special Cable to The New York Times" describing the "discovery" of an oil well in Palestine's Negev area. For the time being Palestine's Negev area is occupied by a fully equipped and trained army of youthful Zionist males and females disguised as "pioneers" to allay the world's suspicion why this army is kept there. Mr. Kenneth Love, the correspondent of the New York Times in Palestine, was duped into sending from Tel Aviv this "Special Cable to The New York Times" broadcasting to the world the "discovery" of oil by Zionists in Palestine's Negev area. The New

York Times published a large map of Palestine with Mr. Love's lengthy "Special Cable to The New York Times." On this map the "Negev" is indicated in large letters. The "discovery" oil well is indicated on the map in the middle of Palestine's Negev area. The banking firm of Kuhn, Loeb & Company, United States representatives of the Rothschild international financial, political and industrial "octopus," the master-minds of Zionist subversion in Palestine since 1862, exercises effective control over The New York Times. The New York Times has been the outstanding advocate in the United States of the militant Zionist conspiracy and Zionist aggression in Palestine. The New York Times is giving the public another "brain washing" with its reports on the "discovery" of oil in Palestine's Negev area.

The "Special Cable to The New York Times" appears there under a large headline reading "ISRAEL HITS OIL IN OLD DRILL HOLE; DISCOVERY ACCLAIMED BY NATION." The map indicates this "discovery" oil well about 40 miles south of an imaginary line running between Jaffa and Jerusalem, in the area indicated "NEGEV" on the map. This "discovery" oil well is in the heart of Palestine's Negev area, described in the Standard Oil Company of New York's 1914-1919 geological surveys and engineer's reports "as rich as any in the world" in oil. Mr. Kenneth Love's "Special Cable to The New York Times" from Tel Aviv calls attention to the fact that the "discovery" oil well was only the result of drilling deeper down into an abandoned test-hole drilled by others long before the Zionist armed forces invaded Palestine's Negev area in 1949. The Zionists occupied this area after the 1949 armistice.

As this newspaper goes to press, The New York World-Telegram-Sun, on page 1 of its October 12, 1955 issue, features an Associated Press cable from "Heletz, Israel" dated October 12, 1955 under a headline reading "ISRAEL BRINGS IN SECOND GUSHER." This oil well "gushing 250 feet high" is "gushing" oil from Palestine's Negev "as rich as any in the world" oil reserves. The geologist there remarked "this Heletz-Hulekat area" in Palestine's Negev "it is not small," according to the Associated Press cable. The Associated Press cable continues "He added that seismographic studies indicated development of about 100 wells in the (Heletz-Hulekat) area 'is not impossible'." That is only the beginning.

HOW TO AVOID SLAUGHTER OF OUR U. S. A. BOYS IN PALESTINE

In spite of every protest to the contrary, regardless of their origin, every man, woman and child in the United States must be told as quickly as possible, why their precious sons, husbands, brothers and fathers may soon be fighting and dying in Palestine, as only so very recently they were fighting and dying unnecessarily in Korea. Beyond all question of doubt, it is vital today to the security of the United States, and to the immediate and future welfare of every person in the nation, that the public be informed as rapidly as it can be done, the real reasons, until now so successfully suppressed and kept secret from the public, why President Eisenhower now recommends "formal treaty engagements" for the employment of the armed forces of the United States in Palestine.

U. S. A. ARMY TO PALESTINE WORLD WAR III CURTAIN RAISER

The most competent qualified persons to judge this are of the unanimous opinion that employment of the armed services of the United States in Palestine will prove to be the "curtain raiser" for World War III, with all its ghastly inevitable and now unavoidable catastrophic consequences for every man, woman and child in United States. That calamity must be prevented at all costs. Only the aroused active interest immediately by an alerted public can prevent the disastrous outcome of existing ignorance and/or indifference throughout the nation on this important question. To successfully avoid and avert that cataclysm the entire nation must become fully informed on the relevant facts which follow here. In times of danger it is wise to bear in mind that "forewarned is forearmed," and that "it is better to be safe than sorry." It is now later than the nation realizes, and time is running out for us, but there is still time in which to save the situation by acting now.

WHAT EVERY GOOD CITIZEN SHOULD DO BEFORE THE SUN SETS

Every father and son, every mother and daughter, and every husband and wife should sit down and write a letter to his or her Congressman and Senator. A million letters to Congressmen and Senators may keep our boys in their U.S.A. uniforms out of Palestine, and preserve the peace of the world. The Constitution of the United States guarantees every citizen "the right to petition Congress." Mail him or her a marked copy of this Common Sense. They will know their own constituents have the facts and this will give them courage to act. Do it today. Tomorrow may be too late.

"buy! buy!" or "bye-bye"

"Buy! Buy!" today as many copies of this issue as you can afford, and distribute them personally in your community to your friends and to men and women of importance in every walk of life. If you do not make the sacrifice to do this you may soon be waving "Bye-Bye" to all those very precious rights and privileges you now enjoy under the only truly representative form of government left in the world today. Whenever the citizens of the United States have been correctly and completely told the truth on any subject they have always done the right thing at the right time. You too can help in this fight to save your country for you by your aid in increasing the distribution of Common Sense to more than 1,000,000 copies to new readers. Your cooperation today may prove to be "the straw that breaks the camel's back." Obey that impulse. Order now!

I see I turn I feel RED, WHITE & BLUE

I SEE RED as I vision the precious blood of the countless innocent millions drenching the sacred soil of our dearly beloved United States in World War III, staining it as red as the flag of those who spill it.

I TURN WHITE even at the thought of surrender by the United States to the Soviet Union, defeated by them with atomic and hydrogen bombs made from secrets stolen from us for them by traitors in our government.

I FEEL BLUE as I meditate that this fate may too soon overtake us because the nation is too busy making money and having fun to listen to those who still can tell them how they can save their country from ruin.

Only an informed nation can know how to save itself from destruction.

Send \$1., \$5., \$10., \$50., \$100. or more and every penny of your gift will be used to send copies of Common Sense to all who should be reading it.
